Easy | Long ears over a compact body

Dark lines are new. Gray lines were drawn in an earlier stage.

1. Draw a rounded head, leaving a small gap at the top.
2. Add two long ears. Bring both back to the head.
3. Draw a low, rounded body below the head.
4. Add two oval feet, erasing the body edge behind them. Join a small tail to the side.
5. Place the eyes, a tiny nose and two short mouth curves.
6. Add one line inside each ear and two small toe marks per foot.

Try this fix: If the ears look heavy, narrow them rather than making the head larger.
