

DRAW A LITTLE. MAKE IT YOURS.

A cactus in a pot

Starter | Straight edges and one rounded top

Dark lines are new. Gray lines were drawn in an earlier stage.

STEP 1

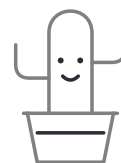

STEP 2

STEP 3

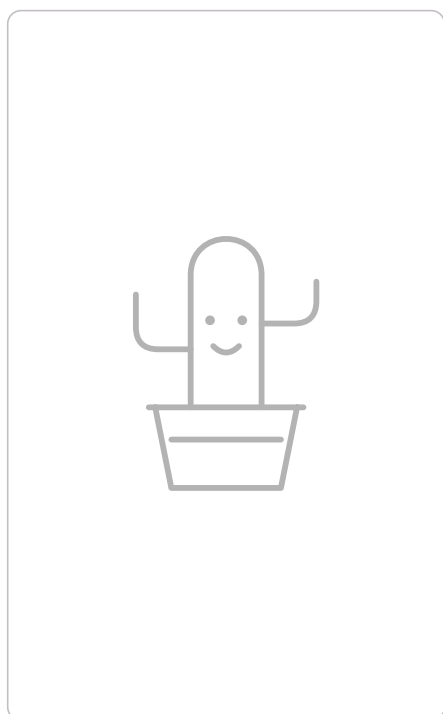

STEP 4

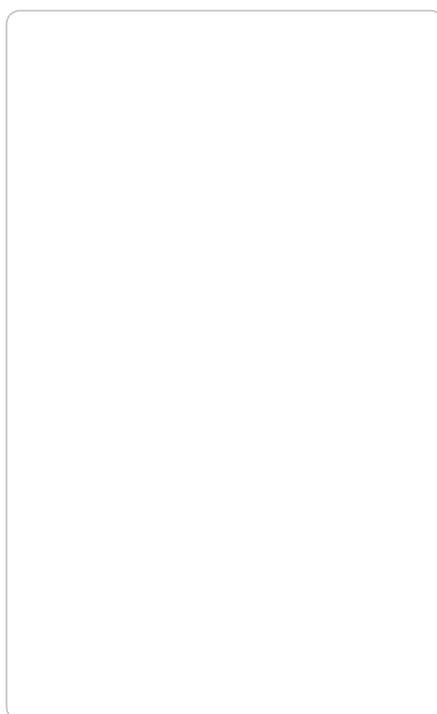

1. Draw a wide pot rim, then two sloping sides and a flat bottom.
2. From inside the rim, draw two upright sides joined by a rounded top.
3. Add a short bent arm on each side. Stop the arms well above the pot.
4. Add two eyes and a smile. Try a small stripe on the pot.

Try this fix: If the cactus looks crowded, shorten the arms or widen the gap between the plant and pot edges.
