

DRAW A LITTLE. MAKE IT YOURS.

A little rain cloud

Starter | Joining round bumps to a baseline

Dark lines are new. Gray lines were drawn in an earlier stage.

STEP 1

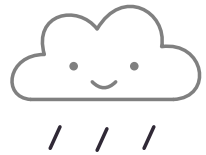

STEP 2

STEP 3

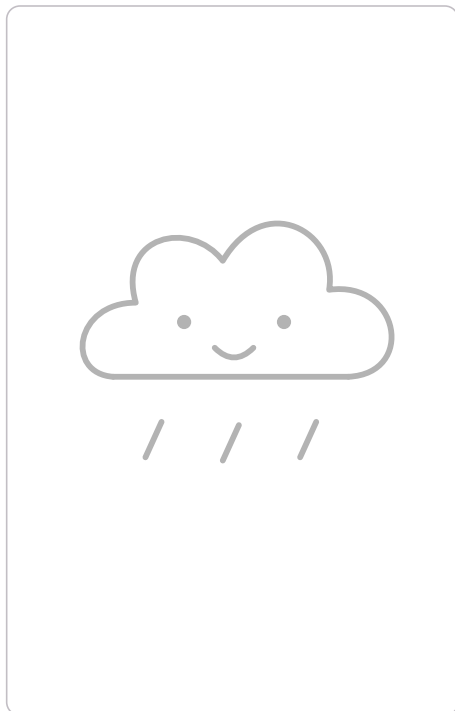

STEP 4

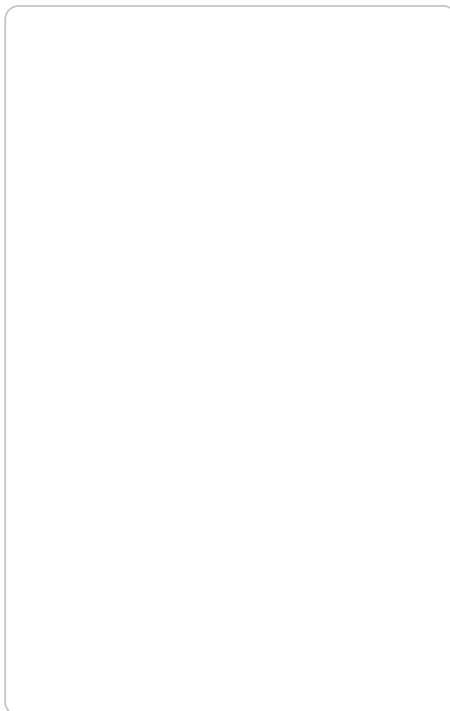

1. Draw a short horizontal line for the bottom of the cloud.
2. Join its ends with a series of soft bumps, making one near the middle taller.
3. Add two eyes and a small smile inside the outline.
4. Add three short rain marks below. Keep gaps between the rain and the cloud.

Try this fix: If the outline looks busy, remove a bump. Three or four clear lobes are enough.
