

DRAW A LITTLE. MAKE IT YOURS.

A cheerful teacup

Starter | Curved rectangles and an oval rim

Dark lines are new. Gray lines were drawn in an earlier stage.

STEP 1

STEP 2

STEP 3

STEP 4

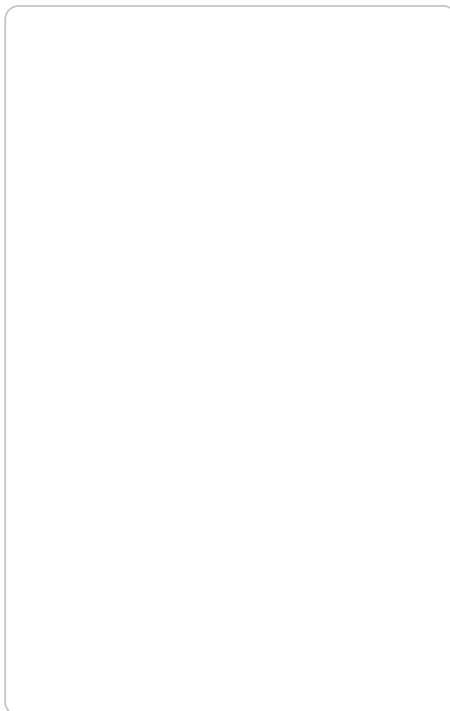

1. Draw a cup with gently sloping sides and a curved bottom. Leave the top open.
2. Draw a narrow oval rim. Add a looping handle on the right with a smaller opening inside.
3. Place two eyes and a smile between the rim and the bottom.
4. Add two rising steam curves and a shallow saucer underneath.

Try this fix: If the handle looks like a second cup, make its opening smaller and attach both ends to the cup side.
