

DRAW A LITTLE. MAKE IT YOURS.

A patterned hot-air balloon

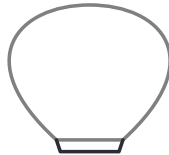

Moderate | A rounded envelope, panels and suspended basket

Dark lines are new. Gray lines were drawn in an earlier stage.

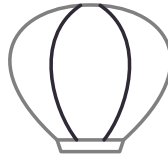

STEP 1

STEP 5

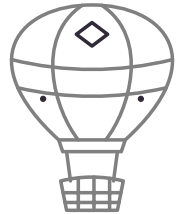

STEP 6

STEP 7

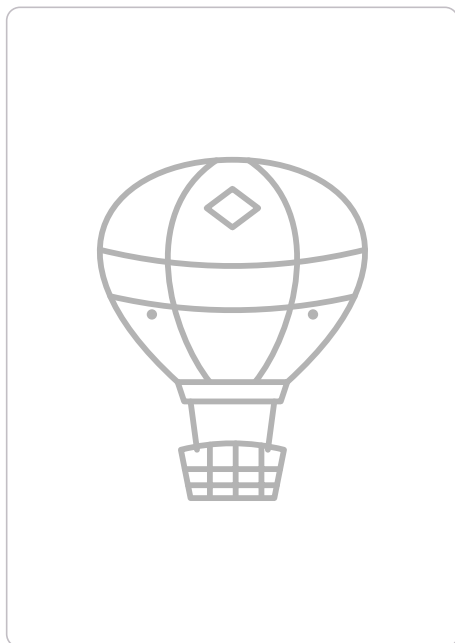

STEP 8

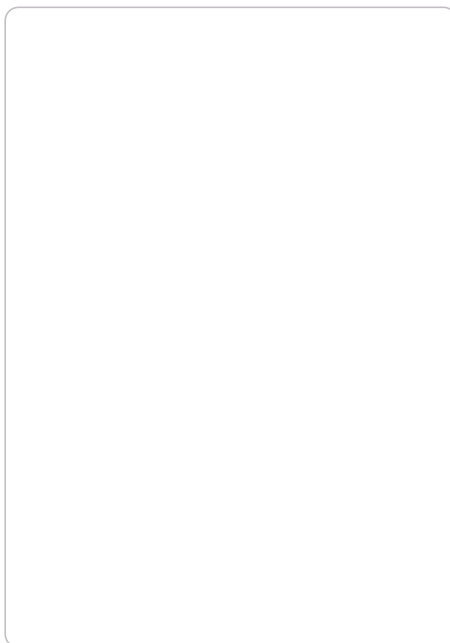

1. Draw a broad rounded balloon shape that narrows near the bottom.
2. Add a short band along its lower edge.
3. Draw two curved vertical panel lines inside the balloon.
4. Add a broad curved stripe across the middle.
5. Draw two ropes descending from the lower band.
6. Join the ropes to a small basket with a shallow top edge.
7. Add a few short woven lines inside the basket.
8. Add small decorative marks on the balloon, leaving broad areas for color.

Try this fix: If the balloon looks flat, curve the panel lines toward the outer edges instead of drawing them straight.
