DRAW A LITTLE. MAKE IT YOURS.

A strawberry ice cream

Easy | A scalloped scoop over a pointed cone

Dark lines are new. Gray lines were drawn in an earlier stage.

STEP 1

STEP 2

STEP 3

STEP 4

STEP 5

STEP 6

1. Draw a long triangular cone, keeping the two sides similar in length.
2. Add a wide rounded scoop with three soft bumps. Erase the cone edge hidden behind it.
3. Draw three sloping lines across the cone.
4. Cross those lines with three lines sloping the other way.
5. Add a small berry shape on top with two little leaves.
6. Add a few short sprinkles. Leave most of the scoop open for color.

Try this fix: Keep the waffle lines inside the cone. Shorten them as you approach the point.
