

DRAW A LITTLE. MAKE IT YOURS.

A spotted mushroom

Starter | A broad arch over a short stem

Dark lines are new. Gray lines were drawn in an earlier stage.

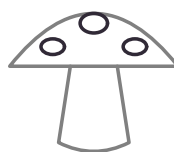

STEP 1

STEP 2

STEP 3

STEP 4

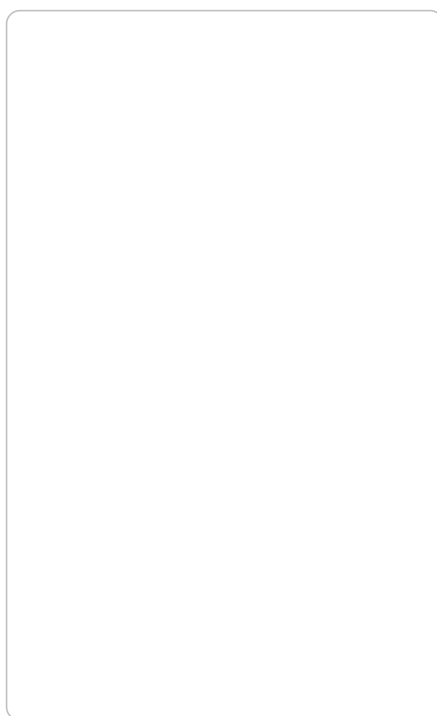

1. Draw a broad arch and join its ends with a straight line for the cap.
2. Add a short stem underneath with a gently curved bottom.
3. Place three spots inside the cap. Leave some plain space around them.
4. Draw a little face on the stem. Keep it clear of the cap edge.

Try this fix: If it looks like an umbrella, shorten and widen the stem, then soften the cap corners.
