DRAW A LITTLE. MAKE IT YOURS.

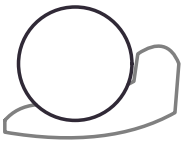
A leaf-side snail

Easy | A spiral inside a rounded shell

Dark lines are new. Gray lines were drawn in an earlier stage.

STEP 1

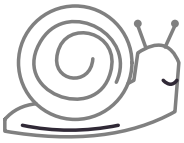
STEP 2



STEP 3

STEP 4

STEP 5



STEP 6

1. Draw the long foot and raised head. Leave a gap along the back for the shell.
2. Add a round shell resting on the back.
3. Draw a loose spiral inside the shell, working inward.
4. Add two short feelers above the head with dots at their tips.
5. Place a small smile near the front. Add a short line along the foot.
6. Draw a leaf beside the snail with a central vein and two side veins.

Try this fix: Leave a gap between the spiral turns. If they touch, make the shell larger on the next attempt.
