

DRAW A LITTLE. MAKE IT YOURS.

A patterned turtle

Easy | A shell, side profile and simple pattern

Dark lines are new. Gray lines were drawn in an earlier stage.

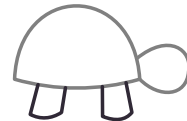

STEP 1

STEP 3

STEP 4

STEP 5

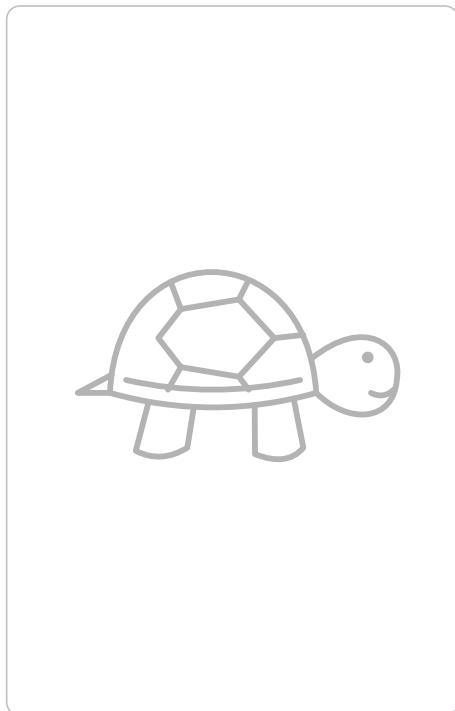

STEP 6

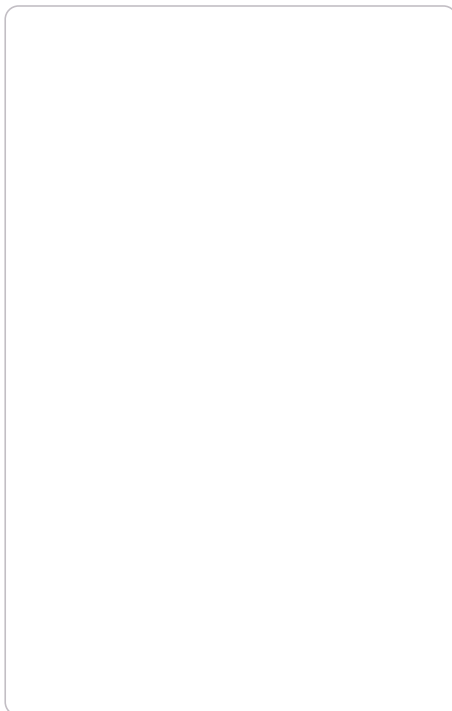

1. Draw a low arch and close it with a gently curved bottom.
2. Add a small head at the right, joined to the shell edge.
3. Place two rounded feet underneath the shell.
4. Add a small tail at the left and a curved shell border.
5. Draw one central shell patch with short lines toward the border.
6. Add a single eye and a small smile on the visible side of the head.

Try this fix: If it looks top-heavy, flatten the arch and keep the head below the shell top.
